

NEWSFLASH DECEMBER 2011

“Final Project Conference”

President Hotel, Kiev, Ukraine.

Project financed by the European Union.

Leak detection with specially trained leak detection dogs

This was the last conference of five, held in 2011 and sponsored by the European Union.
The conference focus was component leakage monitoring

A presentation was given by “The Sniffers” on, how to find illegal taps in difficult circumstances and how to find leaks on gas pipelines in rural and difficult areas.

The conference was attended by almost all major pipeline owners of Ukraine.
